

## TURNING THE BIGGEST CHALLENGES IN A TREND-DRIVEN BUSINESS INTO SUSTAINABLE COMPETITIVE ADVANTAGE

Streamlining the subcontracting process as well as managing the quality as per customer satisfactions is the prime requirement for a sustained growth in an industry of fashion & garment products, apparel, accessories footwear, etc.

### Major challenges faced by the industry are:

- Access of information on the availability of raw material
- Increase product innovation
- Procurement and production planning
- Optimize product throughput
- Location of semi-finished stock at various subcontractors' locations
- Managing location-wise inventory
- Costing (during sampling as well as production)
- Inter-company transactions (insinuations where multiple group companies are involved in order execution)
- Timely reporting towards statutory compliance needs
- Improve quality control
- Leverage global partnerships
- **And many more...**

**NAVApparel** by **Pebblestone Fashion**, built on Microsoft Dynamics NAV, is an enterprise solution that enables apparel manufacturers to rapidly react to rising consumer trends and quickly convert these trends into new garments that can be delivered to market on-time and on-budget. We offer the following functionalities to meet your customized needs:

**Data Management Solution:** manages Product specification & production flow of an order

**Pre – Configured:** meets Indian localization requirements and statutory needs

**Capturing Design** information, defining the complete item & assigning various parameters, enabling inventory tracking location-wise, period-wise & item-wise

**Material Requirement Planning**

**Inventory Valuation;** maintaining planned Vs actual dates

**Maintenance of Indian Statutory** requirements like TDS, TCS, VAT, Sales tax, FBT in the form of easy steps

**Maintenance of Order Matrix** based on color and size **Enhances** the process of building Time & Action Plan templates, which facilitates tracking, enhances efficiency, accuracy and reduces redundancy.

**Creation of detailed BoMs**

**Wholesale and Distribution** module contains the functionalities of Item variants & dimensions, Matrix views, prices per variant and SKU information per variant

## Pebblestone Fashion has a modular construction, offering the following modules:

- Traffic
- Queue posting
- EDI Fashion United
- Commission
- Product Lifecycle Management
- Advanced Prepack
- Value Added Services
- Corporate Wear
- Corporate Wear Entitlements

## KEY BENEFITS

- Easy, accessible and comprehensive application to manage orders
- Integrated business functions bring all your key processes and departments on one single platform leading to a complete eradication of redundant and error-prone data entries
- By streamlining the subcontracting process, you bring down the production cycle, freeing the supply chain to do more work, hence meeting more demand
- Working on different sets of seasonal garments made possible
- Costs at each level evident and planned makes costing easier
- A multi-currency product allows you to store and maintain the current exchange rates and a variation, enabling you to monitor the unrealized gains/losses due to the fluctuation in the exchange rates

### Alletec NAVApparel Customers

### All e Technologies (Alletec): Your Partner to Success

Alletec (All e Technologies) has dominated the Dynamics NAV (formerly, Navision) business solution space in India for last 10 years. From being the first NAV (formerly Navision) partner in India, Alletec has consistently maintained its first-mover advantage and retained its leadership position. Majority of the large NAV customers in India have relied on Alletec for implementation and support services. Alletec has also been consistently active in servicing and supporting NAV customers and partners outside India.

Years of sharp focus on **Dynamics NAV** (formerly, Navision), a series of high profile, complex and large implementations spanning across all continents, and the sheer depth of product knowledge, functional expertise and technical competence of our teams have earned us admiration and respect from customers and competitors alike.

Alletec is today India's largest provider of NAV solutions - by both team size, number of customers and NAV revenue.
