## Make the right decision at the right time with Alletec Data Analytics Solutions

*"Alletec has been a trusted partner for Actis across the various facets of our business process automation and data analytics journey. They have helped us achieve our Finance, Reporting automation and Investor relationship goals. Project execution efficiency and domain expertise are their greatest strength areas"*

*Manish Agrawal, GM Actis*

With organizations undergoing Digital Acceleration, tremendous amount of data gets generated from every function of business – be it Finance, Shopfloor, Logistics, Sales or Customer Service. It becomes critical to be able to integrate the data residing in various sources, including internal systems, 3rd party applications and external sources. Ability to extract actionable insights provide competitive edge to the organization.

Alletec's Data Analytics Solutions include 'Data to Value' Consulting, Data Warehousing, Reporting, and Predictive Analytics - enabling organizations extract the best and most required business insights. Our solution is backed up by Microsoft's farsighted technology – advanced Artificial Intelligence and Machine Learning to enable businesses to uncover and extract actionable insights from large volumes of structured and unstructured data.

This gives the leadership the tools to make real time decisions, identify emerging trends and respond faster to disruptive forces.
